

ASEE - Chemical Engineering Division Award Recipients for 2000

The Ray W. Fahien Award

Sponsored by 3M Corporation

Francis J. Doyle, III

University of Delaware

Professor Doyle was specifically recognized for his contributions to chemical engineering education through software development, innovative uses of the world wide web, excellent teaching, and effective mentoring of students.

This award is given annually to a educator who has demonstrated a scholarly approach to teaching and learning and who has shown evidence of vision and contribution to chemical engineering education. Nominees are evaluated based on outstanding teaching effectiveness and educational scholarship. The award recipient should have made significant contributions to chemical engineering education that go beyond his or her own institution.
