ASEE - ChE Division

Ray W. Fahien Award

Presented to

Robert P. Hesketh

Rowan University

This award was established in 1996 to honor the memory of Ray Fahien, editor of Chemical Engineering Education from 1967 until his death in 1995. He was effectively the founding father of the journal, establishing it as a premier publication vehicle in the field of chemical engineering education. He selflessly gave his time and talents to advance pedagogical scholarship, particularly in the careers of young educators, through his dedication to the journal and to the profession.

Given annually to an educator who has demonstrated a scholarly approach to teaching and learning and who has shown evidence of vision and contribution to chemical engineering education. Educators who have been faculty members for not more than ten years as of July 1st in the year of the award will be eligible. Nominees are evaluated based on 1) outstanding teaching effectiveness and 2) educational scholarship. The award recipient should have made significant contributions to chemical engineering education that go beyond his or her own institution.
