

At Celanese, we won't force you into a mold.

The challenge of being part of a large, growing corporation could be offset by the fear of being swallowed up, forced to conform to the company's way of thinking.

At Celanese, we didn't get to be successful by sticking to the traditional way of doing things. Our unusually open working environment, our flexible handling of responsibilities have won us a solid position in the production of chemicals, fibers, plastics and polymer specialties.

When you come to work at Celanese, you'll be assigned to a project right away. You can put your creativity and decision-making skills to good use. We won't waste your time in lengthy training programs—we won't waste your mind by forcing you to fit into a corporate

mold. You'll have the freedom and the opportunity for rapid growth and advancement at Celanese.

We're looking for people who are still growing, and want to be part of an expanding industry. You just might fit in—your way—at Celanese.

If you have a degree in engineering or chemistry, and would like to learn more about us, write Tom Clark, Celanese Building, 1211 Avenue of the Americas, New York, N.Y. 10036.
