

...ONCE AND FOR ALL, WE ARE NOT FORD MOTOR COMPANY!

It's a strange kind of paradox.

We work hard for forty-one years. We build ourselves up into a billion and a half dollar corporation — one of the nation's top 70.

And what happens.

A lot of people walking around today think that FMC means Ford Motor Company.

We're not even kissing cousins.

We build less romantic but bigger horsepower things like power shovels and harvesting machines.

We are one of the nation's leading suppliers of organic and inorganic chemicals.

We make automated egg handling systems, citrus processing machinery, marine vessels, freeze-drying equipment.

And it doesn't end there.

We manufacture rayon fiber that goes into tire cord as well as throwaway bikinis. And then we turn right around and manufacture turbo pumps.

We even make fire engines. That's a far cry from a snappy Mustang.

We're not a conglomerate, but a *diversified* company. Which means that everything we do relates to everything else we do.

Even so, people find it hard to pin a label on us.

Anyway, now that you know we're not Ford Motor Company, nor the Fancy Marble Company, nor the Flying Machine Corporation, nor any other F.M.C., we hope you'll take a second look at who we really are.

We need talented people in many different disciplines: engineers, scientists, lawyers, accountants, MBA's.

If the challenge intrigues you, write for our descriptive brochure, "Careers with FMC!" FMC Corporation, Box 760, San Jose, California 95106. We are an equal opportunity employer.
