

# CHEMICAL ENGINEERS

When you GO with  
**TEXACO**  
you GO with the BEST!

. . . The BEST Facilities

. . . The BEST Products

. . . The BEST People

. . . The BEST Opportunities

Yet, being the best makes it that much harder to get better. With competition constantly at our heels, it takes an aggressive and imaginative R & D team to maintain Texaco's leadership role in the petroleum and petrochemical industry. An important part of this team are Chemical Engineers . . . men like yourself . . . constantly searching for better ways. It is through their efforts, as well as their professional colleagues and an aggressive management team, that Texaco stays out front.

You, too, can be part of this winning combination. For Chemical Engineers with a B.S. or M.S., the professional and economic rewards of a Texaco career in process and product development have

never been greater. Texaco's practice of basing promotions on performance and ability afford you the BEST opportunities for advancement, while enjoying our congenial, shirt-sleeve atmosphere.

Texaco has immediate openings at its laboratories in Beacon, N. Y., Richmond, Va., and Port Arthur and Bellaire, Texas for qualified Chemical Engineers who already are, or are in the process of becoming U. S. Citizens.

Interested candidates are invited to send their resumé to: **W. R. Hencke, Texaco, Research & Technical Department, P. O. Box 509, Beacon, N. Y. 12508.** Texaco is an equal opportunity employer.
