

FAURJ

The Florida Atlantic Undergraduate Research Journal (FAURJ) was established through the Council of Scholarship and Inquiry, a registered organization of FAU. The FAURJ publishes a volume every spring. The issue in which a manuscript is published is dependent on the amount of time it takes our volunteer reviewers to review the manuscript. FAURJ is a part of the Distinction through Discovery initiative formerly known as the Quality Enhancement Plan, and intends to expand the culture of undergraduate research and inquiry at FAU.
