

Editor's Note

The Florida Geographer is the official publication of the Florida Society of Geographer and is distributed free to members of the society. It is a statewide journal, with coverage of geographical topics relating to the state. Manuscripts should deal with some social science or physical geographical aspect of Florida or include Florida as an important component of a larger study.

Manuscripts are solicited from all who feel they have research worthy of dissemination. For matters of style, see articles in the present issue. Authors should not be dissuaded from submitting articles for review because of format considerations.

Authors should submit the final copy of the paper on an IBM compatible diskette (3.5") in high-density format. Word Perfect or Word files are preferred: If not, please save files in ASCII (Dos text file) format.

This issue of the journal was prepared using Pagemaker 6.5 for Windows. Graphics were prepared using Freehand 8.0.
