
**COASTAL PHOTOGRAPH BY SOUTH CAROLINA DEPARTMENT OF
PARKS, RECREATION & TOURISM**

PHOTO 26. Litchfield Beach. This scene characterizes the Grand Strand of northern South Carolina where wide, white, sandy beaches stretch for 88 kilometers. These recreation areas feature swimming, sunbathing, fishing, shell-hunting, people-watching, and strolling. The elevated walk-over structures provide beach access and viewpoints while also protecting the dunes and their vegetative cover from the effects of foot traffic.
