

## Outside Reviewers 1993

The Associate Editors of the *JCR* have the responsibility of conducting the review process, including the selection of reviewers, evaluation of manuscripts in the light of review comments, and making recommendations to the Editor-in-Chief concerning the ultimate disposition of manuscripts. Authors of potential articles in the *Journal of Coastal Research* will find significant representation of their specialties on the Editorial Board. Because we also frequently receive reviews from specialists outside of our own board, we acknowledge with thanks the following reviewers who have vetted papers submitted to the *Journal*. Their interest and cooperation are appreciated.
