

Appendix to: **GEOMORPHOLOGICAL CHARACTERIZATION OF THE COASTAL AND MARINE AREA BETWEEN PRIMERA AND SEGUNDA ANGOSTURA, STRAIT OF MAGELLAN (CHILE)**

U. Simeoni, G. Fontolan and E. Colizza
Journal of Coastal Research, 13 (3), 1997

CONTINENTAL AREA

- Gravity slope landforms**
- landfill niche or slope
- Erosion surface**
- marine terrace
- Fluvial and glacio-fluvial landforms and deposits**
- stream
 - glacio-fluvial fan
 - fluvial or glacio-fluvial terrace edge
- Isostatic landforms and deposits**
- deflation surfaces and hollows
 - dunes and eolian sands
- Glacial and periglacial landforms and deposits**
- kettle holes
 - supposed marine bar
 - glacial striations
 - moraine bar
- Landform drift**
- glacial drift
 - drumlin drift
 - eolian drift of the ponds

COASTAL AREA

- foredune
 - spot
 - salt marsh
 - ancient salt marsh
- Cliff**
- behind the beach-face
 - at the beach-face
- Beach**
- sand
 - gravelly sand or sandy gravel
 - gravel
 - cobble
 - boulder
 - berm
 - multiple berms
- Beach scarp**
- at the shoreline
 - behind the shoreline
- Tidal flat**
- S = sand
 - G = gravel
 - C = cobble
 - M = mud
 - tidal channel
- Evolutive dynamics of the coast**
- advance
 - erosion
 - stable

MARINE AREA

- Bathymetry**
- depth contours in m
 - bank
- Sea-bed deposits**
- outcropping rocks, hard substratum
 - gravel and sandy gravel
 - sand
 - gravelly sand
 - muddy sand
- Marine crinoids**
- main transport direction of the surface deposits
 - main direction of the tidal currents
 - main wave direction
 - main littoral drift
 - mean co-tidal range
