First Call for Abstracts/Papers*

COASTAL ZONE CANADA '94  
COOPERATION IN THE COASTAL ZONE

A major international coastal zone management conference, **Coastal Zone Canada '94 (CZC '94)** will be held in Halifax, Nova Scotia, Canada on 20-23 September 1994. The theme of the conference is "Cooperation in the Coastal Zone". Its purpose is to provide an exciting opportunity for participants from many different disciplines and areas of interest to explore strategies for developing new partnerships in coastal zone management. Panel sessions, workshops and Roundtable discussions will examine cooperative approaches and new working relationships among coastal zone stakeholders. Concurrent paper presentation sessions will focus on the sharing of new and existing knowledge, experience, and technologies related to coastal and marine issues.

**CZC '94** will be broad in scope covering among other aspects: community initiatives, scientific research, engineering development, conservation and protection, socio-economic issues, law and politics and coastal management. Among coastal zone user interest groups expected to attend are residents, community-based organizations, aboriginal groups, scientists and engineers, academics, government (municipal, provincial and federal), primary resource users, industry and business and the military, from Canada and other nations.

A major Trade Show and Exhibition is planned to allow companies and organizations to meet with other conference attendees. In addition, Poster sessions will be a prominent feature of the conference.

**CZC '94** will be held at the World Trade and Convention Centre in Halifax. Located on Canada's Atlantic coast, Halifax is a seaport city with a history and tradition of the Maritimes region of Canada, a focus for many coastal zone endeavours, and famous for its hospitality.

Conference Co-chairs are Mr. Larry Hildebrand, Environment Canada Protection and Conservation and Mr. Brian Nicholls, Marine Assessment and Liaison, Bedford Institute of Oceanography. The conference office is located at the Bedford Institute of Oceanography (P.O. Box 1006, Dartmouth, NS, Canada, B2Y 4A2). Secretariat Phone: (902) 429-9497. Fax: (902) 429-9491

**Deadline for Submission of Abstracts:** *September 30, 1993*

**Deadline for Submission of Manuscripts:** *March 31, 1994*

# THE COASTAL EDUCATION AND RESEARCH FOUNDATION

4310 NE 25th Avenue  
Fort Lauderdale, FL 33308, USA

---

## Officers of the Foundation

Founded in 1983 by: Charles W. Finkl, Sr.,  
Charles W. Finkl, Jr., Rhodes W. Fairbridge,  
and Maurice L. Schwartz

### President & Executive Director:

Charles W. Finkl, Jr.

### Vice President:

Rhodes W. Fairbridge

### Secretary-Treasurer

Charles J. Miller

### Board of Directors

Per Bruun	Maurice L. Schwartz
Donald R. Coates	Andrew D. Short
Robert Dolan	Daniel J. Stanley
Robert Huff	

---

The Coastal Education and Research Foundation [*CERF*] is a nonprofit corporation dedicated to the advancement of the coastal sciences. The Foundation is devoted to the multi-disciplinary study of the complex problems of the coastal zone. The purpose of *CERF* is to help translate and interpret coastal issues for the public and to assist professional research and public information programs. The Foundation specifically supports and encourages field and laboratory studies on a local, national, and international basis. Through the medium of scientific publications, television, and radio *CERF* brings accurate information to the public and coastal specialists on all aspects of coastal issues in an effort to maintain or improve the quality of shoreline resources.

Because *CERF* is concerned with broad environmental

issues, our efforts concentrate on significant problems such as maintenance of good quality (potable) water with adequate beach erosion, flooding, and susceptibility of developed shorelines to storm surge and wave attack. By focusing attention on these potential man-made and natural hazards, it is hoped that our research efforts will help others improve the quality of life in diverse coastal areas. *CERF* thus aims to stimulate awareness of coastal (marine and freshwater shorelines) land and water problems; initiate and foster research and innovation to promote long-term coastal productivity; establish an educational forum for the debate of contentious coastal issues; and develop new principles and approaches for enlightened coastal management, and encourage their adoption and use.

*CERF* is associated with the Department of Geology at Florida Atlantic University in Boca Raton, Florida 33431. This association provides a basis for cooperative investigation of biophysical resources found in open and naturally protected coastal regions, estuaries, large inland bodies of water bounded by shorelines, wetlands, and other coastal environments. Joint investigative efforts by faculty, students, and staff span a wide and diversified range of interrelated topics that are relevant to solutions of today's dynamic problems. It is hoped that these combined attempts to better understand the nature of coastal processes will help forestall what may become contentious issues of tomorrow.

### CERF MEMBERSHIP

Members are individuals, institutions, and corporations that support the aims of the foundation through personal and group efforts or by donations. Memberships are available in different categories with priveleges.

---

## Publications of the Foundation:

### CERF Quarterly Journal:

*Journal of Coastal Research (JCR): An International Forum for the Littoral Sciences* (ISSN 0749-0208). [\$US 58.00] (Personal Rate)

### JCR Special Issues and Reports:

Special Issue No. 1 (1986): Late Quaternary Sea-Level Changes and Coastal Evolution, edited by Paolo Pirazzoli and John R. Suter. [\$US 22.50] (out of print)

Special Issue No. 2 (1986): Annotated Bibliography of Quaternary Shorelines, Fourth Supplement 1978-1983, edited by Horace G. Richards, William B. Gallagher, and Donald J. Colquhoun. [\$US 22.50] (out of print)

Special Issue No. 3 (1988): Dune/Beach Interaction, edited by Norbert P. Psuty. [\$US 15.00]

Special Issue No. 4 (1988): The Effects of Seawalls on the Beach, edited by Nicholas C. Kraus and Orrin H. Pilkey. [\$US 37.00]

Special Issue No. 5 (1989): High Concentration Cohesive Sediment Transport, edited by Ashish Mehta and Earl J. Hayter. [\$US 37.00]

Special Issue No. 6 (1990): Artificial Beaches, edited by Maurice L. Schwartz and Eric C.F. Bird. [\$US 37.00]

Special Issue No. 7 (1990): Rational Design of Mound Structures, edited by N. Kobayashi and M.A. Losada. [\$US 37.00]

Special Issue No. 8 (1991): Impacts of Hurricane Hugo: September 10-22, 1989, edited by Charles W. Finkl, Jr. and Orrin H. Pilkey. [\$US 37.00]

Special Issue No. 9 (1990): Proceedings of the Skagen Symposium (September 1990), edited by Per Bruun and N. Kingo Jacobsen. [\$US 110.00] (2 Vols., 1000 pp.)

Special Issue No. 10 (1992): Simplified Technical Summary of the Complete Delta Works, Including the Eastern Scheldt (The Netherlands), by Ian Watson and Charles W. Finkl, Jr. [\$US 12.50]

Special Issue No. 11 (1991): Quaternary Geology of Long Island Sound and Adjacent Coastal Areas, edited by Paul T. Gayes, Ralph S. Lewis, and Henry J. Bokuniewicz. [\$US 37.00]

Special Issue No. 15 (1993): Beach and Surf Zone Morphodynamics, edited by A. D. Short. [\$US 37.00]

Special Issue No. 16 (1992): International Bibliography of Coastal Geomorphology, edited by D. Sherman. [\$US 18.50]

Special Issue No. 18 (1993): Beach/Inlet Processes and Management, edited by Ashish J. Mehta. [\$US 37.00]
