The Journal of Nematology (ISSN 0022-300X) is published quarterly by the Society of Nematologists. Periodical postage paid at Marceline, MO and additional Post Offices. **Postmaster:** Send change of address to Society of Nematologists, P.O. Box 311, Marceline, MO 64658. E-mail: son@mcmsys.com. Inquiries concerning subscriptions, availability of back issues, membership in the Society of Nematologists, and changes of address should be sent to the same address. For this and other information, visit the Society's website: <http://www.nematologists.org>.

Mention of a pesticide, cultivar, or commercial or proprietary product does not constitute a recommendation or an endorsement of its use by editors, author(s), their institutions, or the Society of Nematologists. Authors are responsible for statements made in the Journal and Supplement, whether of fact or opinion.

Printed by The Sheridan Press, 450 Fame Ave., Hanover, PA 17331. The Journal is indexed by Kathleen K. Leabo, Port Lavaca, TX.

COVER—Nomarski interference contrast micrograph of a female *Paracroboles* n. sp. The image on the left emphasizes the probolae and cuticle while the image on the right emphasizes the stoma and esophageal region. This nematode was isolated from a mesquite bush (*Prosopis* sp.) in Anza Borrego Desert State Park, San Diego County, California. This species is being described as part of the NSF PEET project on cephalobids. Figure courtesy of Derek L. Hyman and Ashleigh Smythe, University of California—Davis.
